Mitigating Risk with the Right Contract Manufacturing Partner

QUALITY · COLLABORATION · EXCELLENCE

QUALITY

Quality Control & Regulatory Expertise

It's essential to partner with an organization that has established, maintains and applies a compliant quality management system throughout the product life cycle.

- Comprehensive risk management system
- Experienced personnel dedicated to regulatory compliance
- Registered with FDA as drug repackager/re-labeler (key facilities)

COLLABORATION

Design & Development Solutions

At West Contract Manufacturing, our engineers take an innovative yet scientific approach to the development of your product.

- Collaborative cross functional engineering teams
- Rapid component development
- Optimized process for manufacturing efficiencies
- Design for manufacturability (DFM)

EXCELLENCE

Contract Manufacturing

With project start-up costs and limited resources you need a partner that has a demonstrated track record of success and can support your high-volume, complex device manufacturing.

- Full-service molding and assembly solutions
- Primary and secondary packaging
- Real-time process monitoring and lean manufacturing principles
- ISO Class 7 and 8 clean room assembly operations (key facilities)

West's contract manufacturing business provides customized, global, manufacturing solutions for the pharmaceutical, diagnostics and medical device markets. With seven locations throughout North America and Europe, We are focused on serving the needs of healthcare companies by providing a single-source solution from product conceptualization through manufacturing and final packaging. Capabilities include: concept design, engineering development, prototyping, production scale-up, validation and full-scale manufacturing. All of the Contract Manufacturing facilities are ISO 13485 certified and cGMP compliant. As a West company, we are committed to improving patient health and delivering quality products that meet or exceed customer expectations.
